KEEPING IN TOUCH

This Sunday literature for March, April, May will be in the Sunday School class rooms ready for distribution. Teachers and leaders will find the literature in the familiar brown grocery sacks. Sunday afternoon and next week will be the best days for Literature Distribution. Literature Distribution is a tool to be used by Sunday School teachers and leaders to assist in keeping in contact with those enrolled. I recently was told by a Sunday School teacher a story about how Literature Distribution can be used to help reach the unsaved and unchurched. The teacher was out delivering literature. She had some extra literature and remembered a recent visitor to her class. She made the visit, had a short visit and left the literature. Not long after that the visitor became a new member in the class and joined the church by baptism. Literature Distribution opens the door to many ministry opportunities.

TEACHERS and LEADERS MAKE A DIFFERENCE

Sunday School teachers and leaders do make a difference in the lives of those they teach. Not only do they make a difference in the lives of those they teach but also in the lives of those your members come in contact with. That will really increase the circle of your influence. Get a mental picture of your class. Once you have that mental picture of your class, multiply that number by eight because most have a circle of influence of eight to ten people. Because of the influence of eight principle people they can share their faith with a large number of people who need your influence. There are a large number of people in our community who are spiritually hungry. Sunday School teachers, leaders and class members can share how to find the needed spiritual food. Teachers and leaders remember as you teach this Sunday, you are teaching those present and influencing eight to ten more because of the circle of influence of those members present.

GETTING A NEW LOOK

These next few Sundays would be a good time to give the department/class a new look. This can be done with little or no cost. Department and class members can probably provide some good ideas. Here are things you might try.

1. Change the seating arrangement in the room. If it is not possible to change the seating arrangement ask members to change their normal seating places. We are creatures of habit. This can be done in a light hearted way.
2. Create or change the focal area.
3. Remove old posters, teaching helps, handouts, literature and other promotional items.
4. Clean clutter from the cabinets.
5. Report to the office equipment or furnishing needing to be replaced.
